

Do you want tomorrow to
be better than today?

You can't build a stronger economy. But there's plenty you can do to build stronger business processes and a more efficient and resilient organization. You can make tomorrow better than today. **Logicalis can help.**

Who We Are

Logicalis is a global provider of high-performance technology solutions. We provide unique IT experiences by delivering the tools you need to:

- Drive down costs
- Become more competitive
- Serve your customers better

We enable you to make your business successful through technology. Customers who come to us requesting a specific technology tell us they often end up with a better solution. We help you make the most of your resources—time, people and money.

Logicalis has a powerful approach that can help you accomplish your goals. We understand that there are many ways to reach those goals. We help you choose the option that will deliver the results you are hoping to achieve and more.

What We Can Do For You

Manage Change

- Provide new technologies
- Enhance communications
- Leverage organizational data
- Give impartial support and advice
- Provide proactive risk mitigation

Enhance Performance

- Drive business transformation
- Show you where to invest
- Show you how to reduce costs
- Improve overall performance

Joshua Markham,
Senior Consultant,
AMEC

“As AMEC moves increasingly into a global infrastructure model, Logicalis is positioned to help us globally. Very few consultants can play on a global level.”

Case Study: **AMEC**
Solution: Unified Communications
Partners: Cisco, Microsoft
Industry: Professional Services

Logicalis Helps Engineering Giant AMEC Build a Global Infrastructure

The Client

AMEC provides high-value consultancy, engineering and project management services to the world's natural resources, nuclear, clean energy, water and environmental sectors. The company employs more than 23,000 people and maintains more than 400 offices in 40 countries around the world.

The Challenge

AMEC had grown dramatically through a series of acquisitions and organic growth, resulting in a diverse collection of regional infrastructures that they were looking to transform into a single, unified global infrastructure.

The Solution:

Logicalis, in collaboration with AMEC, helped merge three call centers into one single, virtual call center. Logicalis also helped with the global migration to Exchange and the consolidation of multiple domains into a single domain within Active Directory.

Case Study: **Sinclair Community College**
Solution: Data Center Services
Industry: Education

Logicalis collaborates with Sinclair Community College on a comprehensive virtualization and business continuity self-help test.

The Client

Sinclair Community College in Dayton, Ohio is widely acclaimed as one of the top community colleges in the nation. The largest regional provider of online education, with more than 180 different online courses, Sinclair's enrollment is rapidly approaching 30,000 students.

The Challenge

Sinclair need to conduct a comprehensive evaluation of the college's virtualization and disaster recovery options.

The Solution:

Sinclair turned to trusted advisor Logicalis to conduct an IT optimization assessment that considered a range of virtualization scenarios and their financial implications, and a business continuity program that rated the school's infrastructure in terms of continuous analysis, risk mitigation, contingency planning, event/outage/disaster management and business continuance.

Logicalis Services

Logicalis Services are designed to deliver secure, instantaneous and transparent service with technology that grows more complex every day.

- Collaborative Applications
- Email
- Mobility
- Networking
- VoIP

“Logicalis has the skills and experience with technologies that we have not used before. They help us determine what’s available and what our alternatives are. And, once we make a decision, they know how to help us implement it. They are a good partner.”

About Logicalis

Logicalis is an international provider of integrated information and communications technology (ICT) solutions and services founded on a superior breadth of knowledge and expertise in communications and collaboration, data center, and professional and managed services.

Logicalis Group employs over 1,900 people worldwide, including highly trained service specialists who design, specify, deploy and manage complex ICT infrastructures to meet the needs of over 5,000 corporate and public sector customers. To achieve this, Logicalis maintains strong partnerships with technology leaders such as Cisco, HP, IBM and Microsoft.

The Logicalis Group has annualized revenues of \$1 billion, from operations in the UK, US, Germany, South America and Asia Pacific, and is fast establishing itself as one of the leading IT and communications solution integrators, specializing in the areas of advanced technologies and services.

The Logicalis Group is a division of Datatec Limited, listed on the Johannesburg and London AIM Stock Exchanges, with revenues in excess of \$4 billion.
