

HP SOLUTIONS WITH LOGICALIS DELIVER COST-EFFECTIVE IT SOLUTIONS THAT LET YOU GROW YOUR BUSINESS, ADJUST TO CHANGING CONDITIONS, MANAGE SUPPLIERS, AND GET CLOSER TO EACH OF YOUR CUSTOMERS.

HP SOLUTIONS

Logicalis is one of HP's largest national Enterprise Solution Partners in North America, with a 15-year relationship. We have been recognized by HP for both our product acumen as well as our solutions expertise.

Logicalis has been approved for the HP Converged Infrastructure Elite designation, which is the highest level of Solution Elite recognition available from HP. We were selected for this designation based on our expertise across the broad portfolio of HP Enterprise Business technologies and services as well as our ability to implement solutions addressing our customer's business and strategies. The requirements to earn this designation include holding the Enterprise Storage, Services Sales, and Virtualization Elite designations.

Additionally, Logicalis has achieved Elite designations for BladeSystem – Servers and Storage, Business Critical Systems, ProCurve Networking, and Thin Clients – all HP's highest levels of accreditation. From a solutions perspective, we have achieved national Elite status for all of the HP Solution Elite Programs, including Microsoft SQL, Microsoft Unified Communications, SAP, Oracle, Scalable Computing and Infrastructure, and Virtualization as well as Public Sector Elite covering Higher Education, K-12 Education, and State and Local Government.

Our engineers collectively hold hundreds of HP certifications, including the highest levels of certification available for all HP Servers, Storage, Networking, and operating systems.

Our close relationship with HP gives us (and our customers) access to the latest technology, helping us effectively deliver HP solutions to enterprise and mid-size organizations. Logicalis provides hardware, software, and consulting with a number of technologies, including Servers, Storage, HP Software, and HP Services that augment our Outsourcing Services, Application Services, Unified Communication Services and Data Center Services offerings.
