Microsoft Teams

Teams sits at the center of Microsoft 365, the hub for teamwork that combines chat, video meetings, calling, and files into a single, integrated desktop application experience. It is the hub for teamwork that brings together all collaboration and communications capabilities using the full breadth and depth of Microsoft 365.

Teams is the place to have informal chats, iterate quickly on a project, work with team files, and collaborate on shared deliverables. The Teams platform is continuing to evolve, with many new features slated for release that continue to focus on improving productivity and communications.

Turning on Teams is easy – rolling it out in a manner that is most effective for your organization requires planning! Logicalis is here to help you Teams best! Teams includes:

Meetings

Supports both private and channel meetings to be more productive and real-time with:

- High-definition audio, web, and video conferencing
- Presentation and application sharing
- Cloud recording of meetings with transcription and translation
- Share content and use intelligent features, like background blur and scheduling assistance, from mobile devices

Chat

Communicate through threaded and persistent chat with additional features:

- Rich text capable
- Chat, call, and meet across devices, including mobile
- @-mention someone to ensure they see your message
- Keep interactions engaging with memes and animated GIFs
- File sharing in chat

Calling

Connect with anyone through the phone system:

- Have a dedicated phone number for domestic and international calls
- Advanced features, including voicemail, transfer, and emergency calling (e911)
- Advanced call management, including call routing, auto attendant, and reporting
- Hybrid voice using Direct Routing

Integrated Apps

Apps that are available to add into your Teams channels are available in the Teams store, and you also have the ability to custom-build an app and easily distribute it through the store or to your users directly. Microsoft has already made available hundreds of applications that will integrate seamlessly and provide immediate value, depending on what you wish to accomplish!
